

Title: *Self-destructive Love Poems for the Sanely Challenged*

Author: Cory John Eadson

Publisher: Smashwords

Reviewer: Vanessa Finaughty

Well-written and intense, *Self-Destructive Love Poems for the Sanely Challenged* will move you, rock your world and perhaps even change the way you view certain things. In this debut book, Eadson proves he's a true master of the romantically macabre – oh yes, there is, indeed, such a thing, as you will discover when you read.

I assure you, if you want gushing sopiness and candlelight dinners, forget about it – this poetry anthology will give you far better. Some have described its poems as 'disturbingly romantic', and I can't disagree. Eadson delves into the soul itself, the driving force behind the heart – from which all love and hatred stem.

Self-Destructive Love Poems for the Sanely Challenged will take you on a whirlwind tour of your soul with vivid visuals and insane romance. I enjoyed these poems so much that I had to hold back in my review, lest readers mistakenly think I've become infatuated with the author's soul – although I do have to admit to more than a fair amount of intrigue. My only disappointment was that the book ended. Do yourself a favour and read this anthology.
